READS ICED TEA

Refreshing & light - Iced tea really is perfect to enjoy in the Spring sunshine! There are so many variations you can try, but here are a couple of our favourites.

For a cold brew, you'll need a little more tea than you would use for a hot tea in order to get enough flavour in the tea. Every tea will perform a little differently but it's hard to go too far wrong with cold-brewing!

YOU WILL NEED

Reads Loose Leaf Tea
Filtered Water
Ice
Orange or Lime

INSTRUCTIONS

Our recipe suggestions:
Earl Grey & Orange | Jasmine Green & Lime

Measure your tea leaves or bags and place into a bottle with a good lid. We work to **12g per 1 Litre of water.**

Pour in your cold, filtered water to ratio and infuse overnight.

Strain into a glass over plenty of ice, and squeeze in some orange or lime depending on the recipe you chose.

Garnish with a slice, sit back & relax!

We suggest using:

Reads Earl Grey Tea
Reads Jasmine Green
